

# Kitchen, Café, Recreation Office

**Estimated Cost: \$377,000**

Our new kitchen will be located adjacent to the gymnasium/multipurpose room. Our current kitchen appliances are over 25 years old and need to be replaced. The new kitchen will provide a new serving area, pantry, refrigerator, freezer and other appliances.

Adjacent to the kitchen will be a 450 square foot café. This area will contain booths, tables, and vending machines. It will be a place where teenagers can gather to talk, parents can drink coffee while their children are involved in drama rehearsals, or refreshments can be served during Upward Basketball games. We envision youth staffing the café and selling refreshments, with the proceeds going to fund youth mission trips and other endeavors.

The recreation office will provide an office for our Director of Recreation and Children's Ministries as well as a place to register when entering the recreation facilities. It will include a storage room for recreation equipment.
