*A Message
From Our
Coordinator*

2011 was a year of milestones for me. I turned..dare I say it...30 years old, my oldest child went to kindergarten, and I entered my fifth year in serving as a leader for MOPS. These past five years have been such a blessing as I've seen God really work in our group. I smile when I count how many babies will be and have been born this year. Our group has reached a record high in membership and we are constantly being contacted by new moms. My prayer for 2012, and it's one I would like for you all to be in prayer with me, is that God will show us where we need to go from here. Our growth is just one way I'm convinced that this ministry is needed and so important in our community. How can we expand to reach more Moms in 2012? Right now I can't tell you that, but I'm excited about the possibility anyway.
